

# CURRICULUM VITAE

## RESUME

I have over 4 years of experience in the field, during which I have been involved in creating useful and enjoyable user experiences that align with the real needs and pains of the client. With a user-centric approach, I ensure that every step of the process is aligned with the business vision and interests.

## TECNOLOGIES

JavaScript	React	NextJs
NodeJs	Express	Git e Github
PHP	Laravel	TypeScript

## EXPERIENCE

### Development in the Angola Open-source Community 10-2023

- I worked collaboratively on web projects involving contribution.
- I have acquired and applied knowledge in various programming languages.

### Internship in Web Development, Dline-Code 2022 - 2023

- Knowledge acquired and applied in advanced coding languages;
- Application of library and framework concepts for frontend and backend.

### Sobre Rodas Transportes [See the Project](#)

- In this project, I worked with TypeScript and Sass, and integrated with a MySQL database.
- I used TypeScript because it was necessary to handle data.

### Receitas [See the Project](#)

- I worked with PHP and Laravel 10 in this project because it involved user registration and the client requested this technology

### Goobike [See the Project](#)

- built an institutional website for Goobike, a bicycle delivery company, using Next.js 14. I used Next.js technology for better API integration and SEO concepts.

### My Portifólio [See the Project](#)

- In this portfolio project, I worked with Next.js 14 for better integration of future external APIs.
- I solved various issues, such as integrating internal APIs to consume my data and more
