MY CAREER

I'm currently a student and Systems Developer, I work with programming on a project at Reais para Desktop, where I learn a lot of fundamentals about C. After that I became interested in Robotic development, I seek to work in the area with analysis and/or data structure. I have knowledge of computers in general, I have done some services in the area of networks. And I study and work with technologies (HTML, CSS, JavaScript, TypeScript, NodeJS, ReactJs, React Native, Express etc). I intend to specialize by becoming a senior in the area of web development. I consider myself communicative and hardworking, I have ease/interest in learning a new language. I'm always looking for new knowledge, qualifying myself, researching and meeting new people.

ADDITIONAL TRAINING

Cyber Security | Lions Defender 2022 - 2023

Hacking-Pentester attacks and defenses

Impulso Fullstack Web Developer | DIO marc - 2022

TECHNOLOGIES

FrontEnd

- Html e Css;
- Javascript;
- Bootstrap;
- ReactJs;
- React Native;
- Angular;
- VueJs;
- Font Awesome;
- Material UI;
- NextJs;
- Sass;
- Vite, etc

BackEnd

- NodeJs;
- Typescript;
- Express;
- JWT;
- NestJs;
- Swagger;
- Axios;
- JQuery;
- yarn;
- Insomnia;
- Postman
- SolidJs, etc

Data Base

- Amazon DynamoDB;
- MariaDB;
- Mysql;
- MongoDB;
- oracle;
- Postgresql, etc

UI/UX Design

- Adobe Photoshop;
- Adobe XD;
- Figma;
- Canva;
- Dribble, etc

DevOps

- Golang (Go);
- Javascript;
- Python;
- Java;
- PHP, Perl, Ruby;
